- The Brief
- Officer Wellness
- Chief's Counsel

## Automated Vehicles and State Law Enforcement Summit

**AUTOMATED VEHICLE TECHNOLOGIES ARE INCREASINGLY MORE PREVALENT ON THE ROADWAYS. FROM AUTOMATIC EMERGENCY BRAKING AND AUTOMATIC PARALLEL PARKING TO FULLY AUTONOMOUS TECHNOLOGIES THAT ALLOW A VEHICLE TO OPERATE WITHOUT A HUMAN BEHIND THE WHEEL, AUTOMATED TECHNOLOGY IS INCREASINGLY GUIDING TRANSPORTATION SYSTEMS.**

Whether it be driver-assist technology or fully autonomous vehicles, these technologies will forever alter the relationship between driver and vehicle. Eventually, these technologies could eliminate the need for humans to drive at all. While these features promise to save lives and reduce injuries, numerous public safety issues and considerations remain. Law enforcement agencies are increasingly tasked with ensuring that the convenience of automation does not come at the cost of safety. Accordingly, there must be recognition by policy makers at all levels that law enforcement has a significant role and needs to be included in the discussions surrounding automated vehicles.

The growing ubiquity of automated vehicles has generated new responsibilities for law enforcement. Task forces or study groups have been created to manage

the implications of automated vehicles, with state and local law enforcement occasionally having a seat at the table. In some states, state law enforcement actually oversees the testing of highly automated vehicles on public roads. In some of these cases, agencies have had to swiftly evolve to confront the challenges of automated vehicles with few resources or peer relationships to help guide them. To help those already engaged with these issues and to start the conversation on how to best address the coming changes, the Colorado State Patrol (CSP) hosted a two-day summit in September 2019 on Automated Vehicles and Law Enforcement. As one of the first state law enforcement agencies involved with these activities, the CSP was interested in convening a summit for law enforcement agency executives to share information, experiences, ideas, and lessons learned.

Colorado State Patrol Chief Matt Packard provides welcoming remarks.

The agenda was designed to be beneficial for both newcomers and experienced users alike, including an overview of automated vehicle technology, lessons learned from states where automated vehicles were already in testing or use, and an opportunity to hear from manufacturers.

The regional office of the National Highway Traffic Safety Administration (NHTSA) worked in support of the CSP to host the summit. NHTSA Region 8 and CSP collaborated in the planning, logistics, and execution of the meetings.

States represented by attendees at the Automated Vehicles and Law Enforcement Summit:

- California
- Colorado
- Idaho
- Kansas
- Maryland
- Mississippi
- Missouri
- Montana
- Nebraska
- New Mexico
- New York
- North Dakota
- Ohio
- South Dakota
- Texas
- Utah
- Washington
- Wyoming

(school targeted employee-attack 1%.)

nated it type of Roadside ably by acerng signs s attack.

d role in tress, activity has been detected and no direct threat has been made. By working closely with schools, families, and resources in the community, such as mental health providers, law enforcement can help to identify students who are in need of intervention and support those students in accessing the services they need to mitigate the risk of harm to themselves or others.

### OVERVIEW OF U.S. SCHOOL ATTACKS FROM 2008 TO 2017

The 41 school attacks analyzed in the NATAC study included at least one attack in every year of the study period, showing no pattern of increasing or decreasing in the years from 2008 to 2017. Attacks happened in every month except July and every day of the week but Sunday. The majority of the incidents took place in the morning, with one-quarter occurring before school and half taking place during morning class hours. A third of the attacks were carried out outside of classroom hours, indicating that schools and law enforcement should prepare for the possibility of violence before and after school, during lunch, and at other times when students are not in class. For example, 1 of the 41 attacks occurred during a Saturday noon.

Many attacks occurred soon after the attacker returned from a break in attendance. For example, attacks

took place with greater frequency in the weeks following the summer and winter breaks. In addition, 17 incidents occurred within the attacker's first week back to school following other breaks in attendance, such as absences due to truancy, illness, or suspension. Several attacks took place on the first day of school following the summer, fall, and winter holidays.

### CASE EXAMPLE

A 15-year-old student shot and wounded a peer in the cafeteria on the first day of school. He had spent the last week of his summer break planning the attack. Four hours before the shooting, he shared a message on social media: "First day of school, last day of my life."

Nearly half of the attacks were over within one minute. As seen in targeted school attacks and other acts of targeted violence, many victims may be harmed or killed before law enforcement even has the opportunity to respond. The short duration of the attacks highlights the importance of preventing these tragedies before they occur.

## A Quick Guide on Mobile Drone Detection

Things to Consider When Evaluating Technologies

*"The short duration of the attacks highlights the importance of preventing these tragedies before they occur."*

**—A DOUBLE-EDGED SWORD. THINKING ABOUT THAT PHRASE IN THIS CONTEXT, THE CENTRAL INTELLIGENCE AGENCY HAS CREATED AND USED A DOUBLE-EDGED SWORD FOR HIGHLY ACCURATE STRIKES.**

or missiles are military grade and quite a bit more expensive than hobby drones, there have been ample in recent history of weapons being used by hobby drones. In September 2019, for example, a Pennsylvania man dropped explosive on his ex-girlfriend's property using a drone. In even more recent news, a drone attached to the Internet today.

structively, law enforcement uses drones

ments, such as search for missing

believe vital health supplies, drop life

d water to stranded boaters, and process

ons, among other things. According to the

Center for the Study of the Drone at Bard College, in March 2020, 1,101 law enforcement agencies were using drones in some capacity. This is 70 percent of the total use by law enforcement, fire and rescue, and emergency management combined.

Drones have practical uses within many industries, not just law enforcement. Most notably, drones are used for videography, real estate, infrastructure inspections, and crop and field management. It is important to differentiate between beneficial, careless or careless, and criminal drone use.

It's no secret that any commercial drone pilot in the United States is required to follow federal and state regulations, and law enforcement agencies must stay abreast of any changes in drone laws or regulations. The hobbyist pilots who are still careless or careless are the users to worry about. Just to name a few of many examples, hobbyists have unintentionally disrupted first responder

Many law enforcement officers are in a great space when coming out of the academy. They have a new job, are sometimes engaged/newly married, some have babies. A lot of good things are happening all at once. However, once they have been in the field for a few years, it is easy for their identity as a law enforcement officer to become all-consuming. For some it becomes harder to manage the rollercoaster of obstacles presented each day both at work and home.

Throughout my 25 years of law enforcement in Michigan, my husband, currently a lieutenant, and I, currently a detective sergeant, have been looked to as role

## SUPPORTING OFFICER SAFETY THROUGH FAMILY WELLNESS

# Nutritional Needs

It seems like what is considered healthy changes every day. Understanding what is healthy and how to teach your family about good eating habits can be challenging given the constant cycle of fast diets and changing food pyramids. With some simple preparation, you and your family can be on track for a healthier lifestyle. Recognizing the important link between nutrition and officer and family health and wellness can lead to better job performance, healthier individuals and families, and safer communities.

### Be Aware of the Link Between Stress & Food

Be mindful of the connection between stress—work and life—and the food you consume. Choose healthy food options in times of stress to lead to clearer thinking, increased energy, and better overall health.

### Eat Healthy on the Job

Eating healthy while on the job can be particularly challenging given the unpredictability of law enforcement duties. Advance planning and thoughtful discussion of the realities of shift work can assist in better eating habits while on the job.

It is common to choose "comfort foods" with increased fat and/or sugar contents in times of stress, regardless of hunger—particularly officers under physical or emotional distress.

- The FDA recommends limiting added sugar to less than nine teaspoons daily. This is roughly equivalent to:
  - 6.5 slices of frozen pepperoni pizza
  - 1 glazed doughnut
  - 1.5 cups of apple juice
  - 3.5 chocolate candy bars

Practice good coping skills to manage your stress levels.

- Model good relationships with food to your family and encourage young children to do the same.
- Find other outlets for stress—healthy amount of exercise, journaling, or other relaxing activities.
- Make those fun family activities. Try having a family movie night, go on a bike ride, or cook dinner together as a stress release.

Assemble a week's worth of meals in advance to make it easier to eat healthy when facing an unpredictable and often shifting schedule.

Having easy, healthy meal options ready is especially important for night shift officers who may not have the same access to restaurants and grocery stores during their shift.

Spend time each week planning and meal shopping, and cooking lunches, dinners, or midweek meals.

Make meal planning and preparation a family event—it can be fun. Not only does this help your family prepare for the week ahead but it offers an opportunity to model good eating habits to your children.

- Keep healthy snacks in your car, desk, or home. Almonds, a low sugar granola bar, or a banana can help tide you over until you can get a filling, nutritious meal rather than settling for the drive through.
- Have some go-to healthy options at local restaurants. Sometimes you need to buy meals for the day, having a list of favorite, healthy meal options at local restaurants and grocery stores makes choosing a nutritious option easier.
- Equip at local convenience stores for access to a microwave or toaster oven to heat up your meals when you are out on the job.
- Establish an eating routine, to include a break from the stress of your job.
- Get out of your car, off your bike, or out of the office when you eat to train your brain to have a full meal time—free of distractions and to encourage healthy food consumption.

## Supporting Officer Safety Through Family Wellness: The Effects of Sleep Deprivation

While sleep deprivation is not exclusive to law enforcement, it is often amplified due to the unique stressors of the job and shift work. Sleep is essential to maintain and repair bodily functions and systems. Sleep, or lack of, has effects on all functions of the mind and body, which not only affects an officer's job, but also family wellness.

### Effects of Sleep Deprivation on the Body

- Impaired Alertness**  
Sleep deprivation impairs an officer's ability to process information and react to changing circumstances.
- Increased Risk for Heart Disease**  
Sleep deprivation is associated with a higher risk for heart disease and high blood pressure when only sleeping less than six hours a night.
- Spatial Disorientation**  
Sleep deprivation causes a loss of spatial awareness and can lead to dangerous situations.
- Lack of Appetite Control**  
Sleep deprivation has been shown to affect a person's ability to control appetite.

### What about working the night shift?

If you work rotating night shifts, the circadian clock can't shift fast enough to keep up with a rotation.

- The American Psychological Association recommends avoiding symptomatic need caffeine to stay awake at night and sedatives to sleep during the day. These methods can be dangerous and only temporarily disrupt your circadian clock.

Law enforcement is a 24-hour job and for many, working the night shift is unavoidable. Learning how to adapt to the schedule and demands of the job can help combat some of the potentially dangerous symptoms of working the night shift.

If you work a permanent night shift:

- It is best to slowly shift your circadian clock enough to still be able to function on days off.
- The best way to do this is on days off, go to sleep as late as possible and sleep as late as possible.
- On a weekday, minimize the sunlight exposure on the drive home by wearing sunglasses and utilize blackout curtains when trying to sleep.

more than 40% of police officers reported having fallen asleep while driving

25% reported that happened more than once a month

More than half of all police officers don't get enough sleep

## IT ALL STARTS WITH A STOLEN CAR

The first step of violent crime & high-impact crime often begins with a stolen vehicle.

### VEHICLE CRIME IS HIGH IMPACT CRIME

Vehicle crime is a top priority for law enforcement agencies. It is a leading cause of property loss, personal injury, and death. It is a leading cause of property loss, personal injury, and death. It is a leading cause of property loss, personal injury, and death.

### MOTOR VEHICLES STOLEN IN 2015

(Source: FBI UCR)

- 707,758
- 494,782 CARS
- 95,507 TRUCKS/BUSES
- 68,255 OTHER

### HELP US!

Preventing auto theft and other vehicle crimes can prevent major crimes in your neighborhood. Take these steps:

- REPORT IT
- LOCK YOUR CAR, LOCK YOUR HOUSE
- STOP VEHICLE CRIMES
- TAKE YOUR KEYS

### Numbers to Know

- 2x—Texting or dialing while driving doubles the incidence of crash involvement for experienced drivers.
- 18x—Texting or dialing a cell phone drastically increases the incidence of crash involvement for novice drivers.
- 38%—Crashes that could be avoided if driver distraction was not a factor.
- 9%—Drivers at any point during the day who use their cell phones while driving.
- 40%—Drivers who have almost been in a crash because they were distracted.
- 120 feet—The distance required for a car to stop at 40 mph. A fraction delay can increase this distance by several car lengths.
- 32—Countries, as of 2019, have passed laws banning cell phone use while driving and Portugal banned the use of cell phones, hand-held and hands-free, while driving.

### Economic Impact

- \$40 billion—estimated cost of distracted driving-related fatalities.
- \$4.2 billion—estimated societal harm costs due to distracted driving.

next page

## The Dangers of Distracted Driving

Civilians and law enforcement officers alike engage in distracted driving. Trying to multitask while driving is dangerous. Any non-driving activity that you engage in can cause potential distractions including eating and drinking, personal grooming, attending to a pet, or programming your gas while driving. Distracted driving kills roughly nine people every day, and more than 1,000 are injured in crashes involving distracted driving.

### Myth: Multi-tasking

Human brains cannot handle more than one task at a time.

### Numbers to Know

- 2x—Texting or dialing while driving doubles the incidence of crash involvement for experienced drivers.
- 18x—Texting or dialing a cell phone drastically increases the incidence of crash involvement for novice drivers.
- 38%—Crashes that could be avoided if driver distraction was not a factor.

Visit [www.CollaborativeReform.org](http://www.CollaborativeReform.org) for more information and to request assistance.

### HOW IT WORKS

- 1 Submit a request via [www.CollaborativeReform.org](http://www.CollaborativeReform.org). Requests must come from a U.S. law enforcement agency and be authorized by the chief executive of the agency.
- 2 An IACP staff member will contact the requestor and collect additional information.
- 3 The CRI-TAC will assess the request and make a determination on type of TA to be delivered.
- 4 The CRI-TAC will work with the agency and applicable partner organizations to develop a customized plan to include success metrics and follow up.

# What is the Distracted Driving Toolkit?

The Distracted Driving Toolkit provides law enforcement chief executives, command staff, first-line supervisors, and patrol officers with effective strategies that have been used by others to improve distracted driving education and enforcement in their communities, along with tactics to reduce officer distraction in patrol vehicles.

## What It Includes

- A report on promising practices for public education, enforcement, and officer safety
- Press release and talking points template that can be used to address distracted driving issues for chiefs of municipal governments and community education
- Two separate 11 x 17 poster infographics - *The Dangers of Distracted Driving* & *The Dangers of Distracted Driving by Law Enforcement Officers*
- A comprehensive list of resources to help agencies address distracted driving crashes

# Toolkit

A toolkit is a set of documents or resources designed to be used together.

## DOWNLOAD RESOURCE

Law Enforcement Access to NMVTIS

Law enforcement agencies have two options to access the NMVTIS Law Enforcement Tool:  
1. Regional Information Sharing System (RISS)  
2. Law Enforcement Online (LEO)  
Law Enforcement access to NMVTIS data is available at no cost to law enforcement through the Regional Information Sharing System (RISS) and Law Enforcement Online (LEO). If you are a law enforcement agent or investigator and would like to obtain instructions for accessing NMVTIS data, please email [nmvtis@ictp.org](mailto:nmvtis@ictp.org).

# Report/White Paper/Guidelines

## Psychological Fitness-for-Duty Evaluation Guidelines

Ratified by the IACP Police Psychological Services Section  
Philadelphia, Pennsylvania, 2013

### 1. Purpose

- 1.1 The IACP Police Psychological Services Section (PPSS) developed these guidelines to educate and inform the public safety agencies that request fitness-for-duty evaluations (FFDEs) and the practice of examiners who perform them.
- 1.2 These guidelines are most effectively used through collaboration between examiners and public safety agencies. It is desirable that these guidelines be reviewed by both the referring agency and the examiner and that any conflicts between an agency's or examiner's policies or practices and these guidelines be discussed and the rationale for action contrary to the guidelines be documented before commencing the FFDE.

### 2. Limitations

- 2.1 The term "guidelines" refers to statements that suggest or recommend specific professional behavior, endeavors, or conduct for examiners. Guidelines differ from standards in that standards are mandatory and may be accompanied by an enforcement mechanism. Guidelines are aspirational in intent. They are intended to facilitate the continued systematic development of the profession and facilitate a high level of practice by examiners. Guidelines are not intended to be mandatory or exhaustive and may not be applicable to every professional situation. They are not definitive, and they are not intended to take precedence over the judgment of examiners.
- 2.2 These guidelines are not intended to serve as a basis for disciplinary action or civil or criminal liability. The standard of care is established by a competent authority not by the guidelines. No ethical, licensure, or other administrative action or remedy, nor any other cause of action, should be taken *solely* on the basis of an examiner practicing in a manner consistent or inconsistent with these guidelines.
- 2.3 These guidelines are not intended to establish a rigid standard of practice for FFDEs. Instead, they are intended to reflect the commonly accepted practices of the PPSS members and the agencies they serve.
- 2.4 Each of the guidelines may not apply in a specific case or in all situations. The decision as to what is or is not done in a particular instance is ultimately the responsibility of the agency and examiner.
- 2.5 These guidelines are written to apply to agencies within the jurisdiction of the United States and, as such, may require modification for use by agencies in other countries.

*Psychological Fitness-for-Duty Evaluation Guidelines, 2013*

### 3. Definition

- 3.1 A psychological FFDE is a formal, specialized examination of an incumbent employee that results from (1) objective evidence that the employee may be unable to safely or effectively perform a defined job and (2) a reasonable basis for believing that the cause may be attributable to a psychological condition or impairment. The central purpose of an FFDE is to determine whether the employee is able to safely and effectively perform his or her essential job functions.

### 4. Threshold Considerations

- 4.1 Referring an employee for an FFDE is indicated whenever there is an objective and reasonable basis for believing that the employee may be unable to safely and/or effectively perform his or her duties due to a psychological condition or impairment. An objective basis is one that is not merely speculative but derives from direct observation, credible third-party report, or other relevant evidence.
- 4.2 When deciding whether or not to conduct an FFDE, both the agency and examiner should take into account its potential usefulness and appropriateness given the specific circumstances, and the agency should consider whether other remedies (e.g., education, training, discipline, physical FFDE) might be more appropriate or useful instead of, or in addition to, a psychological FFDE.
- 4.3 In all consultations, the examiner strives to remain impartial and objective and to avoid undue influences by any of the parties involved in the case.
- 4.4 In general, mental health professionals refrain from rendering fitness-for-duty opinions when they are not conducting an FFDE, such as when providing debriefings in the context of an officer-involved shooting or similar services in other situations when return to duty is at issue.

### 5. Examiner Qualifications

- 5.1 In light of the nature of these evaluations and the potential consequences to the agency, the examinee, and the public, it is important for examiners to perform FFDEs with maximum attention to the relevant legal, ethical, and practice standards. Such standards include, but are not limited to, the American Psychological Association's (APA's) Ethical Principles of Psychologists and Code of Conduct. Examiners should also consider and be guided by statutory and case law applicable to the employing agency's jurisdiction. Consequently, it is recommended that these evaluations be conducted only by a qualified mental health professional. At a minimum, it is recommended that examiners:
  - 5.1.1 be licensed psychologists or psychiatrists with education, training, and experience in the diagnostic evaluation of mental and emotional disorders;
  - 5.1.2 be competent in the evaluation of law enforcement personnel;

## 2019 Division Midyear

MARCH 24-26 | AUSTIN, TEXAS

The 2019 Division Midyear brought together members from the Midsize Agencies Division, the Division of State and Provincial Police, and the Division of State Associations of Chiefs of Police to discuss midyear planning, law enforcement community identity best practices, and participate in several networking opportunities. More than 100 people attended the Midsize Agencies Division meeting, which provided a forum for information exchange regarding topics specific to midsize agencies (outlined below).

### 2019 Division Midyear Discussion Topics

1. **Early Warning System (EWS):** Research indicates that midsize agencies are adopting EWS technology at an increasing rate. The topic was discussed in terms of the benefits and challenges of EWS, and the role of the agency in the implementation process. The topic was also discussed in terms of the role of the agency in the implementation process.
2. **Quality Chief On Board - A Strategic Police Department (QCB):** This topic was discussed in terms of the benefits and challenges of QCB, and the role of the agency in the implementation process.
3. **Leadership Midyear Meeting - A Strategic Police Department (QCB):** This topic was discussed in terms of the benefits and challenges of QCB, and the role of the agency in the implementation process.
4. **Officer Retention: Stress Management and Peer Support:** This topic was discussed in terms of the benefits and challenges of stress management and peer support, and the role of the agency in the implementation process.
5. **Responding to Catastrophic Events:** This topic was discussed in terms of the benefits and challenges of responding to catastrophic events, and the role of the agency in the implementation process.
6. **Responding to Catastrophic Events:** This topic was discussed in terms of the benefits and challenges of responding to catastrophic events, and the role of the agency in the implementation process.
7. **Responding to Catastrophic Events:** This topic was discussed in terms of the benefits and challenges of responding to catastrophic events, and the role of the agency in the implementation process.
8. **Responding to Catastrophic Events:** This topic was discussed in terms of the benefits and challenges of responding to catastrophic events, and the role of the agency in the implementation process.
9. **Responding to Catastrophic Events:** This topic was discussed in terms of the benefits and challenges of responding to catastrophic events, and the role of the agency in the implementation process.
10. **Responding to Catastrophic Events:** This topic was discussed in terms of the benefits and challenges of responding to catastrophic events, and the role of the agency in the implementation process.

MIDSIZE AGENCIES DIVISION - 2019 ANNUAL REPORT

1. **First Responders' Perspective on the 2019 State Police School Shooting:** This topic was discussed in terms of the benefits and challenges of responding to school shootings, and the role of the agency in the implementation process.
2. **Knowledge and Skill Building: Law Enforcement Organizations Through Leadership Application:** This topic was discussed in terms of the benefits and challenges of leadership application, and the role of the agency in the implementation process.
3. **Officer Retention: Stress Management and Peer Support:** This topic was discussed in terms of the benefits and challenges of stress management and peer support, and the role of the agency in the implementation process.
4. **Responding to Catastrophic Events:** This topic was discussed in terms of the benefits and challenges of responding to catastrophic events, and the role of the agency in the implementation process.
5. **Responding to Catastrophic Events:** This topic was discussed in terms of the benefits and challenges of responding to catastrophic events, and the role of the agency in the implementation process.
6. **Responding to Catastrophic Events:** This topic was discussed in terms of the benefits and challenges of responding to catastrophic events, and the role of the agency in the implementation process.
7. **Responding to Catastrophic Events:** This topic was discussed in terms of the benefits and challenges of responding to catastrophic events, and the role of the agency in the implementation process.
8. **Responding to Catastrophic Events:** This topic was discussed in terms of the benefits and challenges of responding to catastrophic events, and the role of the agency in the implementation process.
9. **Responding to Catastrophic Events:** This topic was discussed in terms of the benefits and challenges of responding to catastrophic events, and the role of the agency in the implementation process.
10. **Responding to Catastrophic Events:** This topic was discussed in terms of the benefits and challenges of responding to catastrophic events, and the role of the agency in the implementation process.

## 2019 Midsize Agencies Division Annual Business Meeting

OCTOBER 26 | 2019 IACP ANNUAL CONFERENCE & EXPOSITION | CHICAGO, ILLINOIS

1. **2019 IACP Annual Conference & Exposition:** This topic was discussed in terms of the benefits and challenges of the annual conference and exposition, and the role of the agency in the implementation process.
2. **Officer Retention: Stress Management and Peer Support:** This topic was discussed in terms of the benefits and challenges of stress management and peer support, and the role of the agency in the implementation process.
3. **Responding to Catastrophic Events:** This topic was discussed in terms of the benefits and challenges of responding to catastrophic events, and the role of the agency in the implementation process.
4. **Responding to Catastrophic Events:** This topic was discussed in terms of the benefits and challenges of responding to catastrophic events, and the role of the agency in the implementation process.
5. **Responding to Catastrophic Events:** This topic was discussed in terms of the benefits and challenges of responding to catastrophic events, and the role of the agency in the implementation process.
6. **Responding to Catastrophic Events:** This topic was discussed in terms of the benefits and challenges of responding to catastrophic events, and the role of the agency in the implementation process.
7. **Responding to Catastrophic Events:** This topic was discussed in terms of the benefits and challenges of responding to catastrophic events, and the role of the agency in the implementation process.
8. **Responding to Catastrophic Events:** This topic was discussed in terms of the benefits and challenges of responding to catastrophic events, and the role of the agency in the implementation process.
9. **Responding to Catastrophic Events:** This topic was discussed in terms of the benefits and challenges of responding to catastrophic events, and the role of the agency in the implementation process.
10. **Responding to Catastrophic Events:** This topic was discussed in terms of the benefits and challenges of responding to catastrophic events, and the role of the agency in the implementation process.

MIDSIZE AGENCIES DIVISION - 2019 ANNUAL REPORT

## Contributions

Throughout the year, Midsize Agencies Division representatives provide subject matter expertise and valuable perspective to programs within the IACP and its member groups. The activity included:

1. **IACP Board of Directors:** The IACP is an association of police leaders committed to advancing the policing profession by promoting best practices, cooperative efforts, and the exchange of information and resources among its members and other law enforcement organizations. The IACP is governed by its members, who are represented by both elected and appointed members of the Board of Directors. The Board of Directors meets four times a year. The Board of Directors is responsible for the overall direction and management of the IACP.
2. **Review of Justice Architecture - Global Justice Planning Group:** This group brings together executives from midsize law enforcement agencies and research partners to discuss trends, needs, and gain insight into midsize agencies and identify opportunities to build capacity within those agencies and across the midsize agency network.
3. **IACP Police Planning Guidelines:** The IACP Police Planning Guidelines are a set of guidelines that provide guidance to law enforcement agencies in the development of police planning documents. The IACP Police Planning Guidelines are a set of guidelines that provide guidance to law enforcement agencies in the development of police planning documents.
4. **IACP Leadership Needs:** The IACP Leadership Needs Program is designed to recognize and support law enforcement professionals, volunteers, and partner organizations from around the world who demonstrate leadership through their commitment to service. Midsize agencies were represented by 11 out of the 27 members in 2019.

## How to Join

If you are interested in learning the impact of midsize law enforcement agencies around the globe, join the IACP Midsize Agencies Division today. IACP members who represent agencies with 50 to 999 sworn are welcome and encouraged to join. For questions, contact your IACP Division Regional Chair or visit [www.theiacp.org](http://www.theiacp.org).

## Vehicle Crimes Committee Auto Theft Educational Awareness Report

### Purpose

The goal of the Auto Theft Educational Awareness Working Group of the International Association of Chiefs of Police (IACP) Vehicle Crimes Committee is to educate law enforcement executives, their departments, and the general public as to the importance of and connection between vehicle crime and subsequent violent crime. This awareness is important to prevent violent crime sprees and their repercussions and to ignite support vital to the sustainability and longevity of auto theft investigative and prosecutorial units across the globe. Law enforcement needs to re-engage internal and external audiences to highlight crimes that have a tremendous impact on our communities, and we must work together to detect and thwart it. Our fact-based research is for law enforcement.

## Vehicle Crimes Committee Auto Theft Educational Awareness Report

## Vehicle Crimes Committee Auto Theft Educational Awareness Report

This quote is based on the experience of several of the committee members.

### Public misconception:

According to a 2014 Gallup poll, 58 percent of Americans rarely or never worry that their car will be stolen or broken into.<sup>1</sup> However the gradual decline of auto theft does not spark widespread outrage, fear, or spur action as it did decades ago. Modern threats like domestic and international terrorism rightly dominate the headlines and budgets. However, even there, the link remains. Auto theft is frequently a component of these high-impact crimes.

For example,

- In 1993, a stolen van was linked to the bombing of the World Trade Center.
- In April 2013, the Boston Marathon bombing suspects carpooled a driver at gunpoint.<sup>2</sup>
- In April of 2016, thieves used a stolen car to smash into businesses and steal shoes and apparel in Indianapolis.<sup>3</sup>
- In May 2016, a couple's SUV was stolen and then used to commit other crimes in Hawaii. The victim said, "Nobody wants to hear that their car was stolen first of all -- and then to find out that somebody was using it as a tool to go do more bad stuff is frustrating."<sup>4</sup>
- In December of 2016, an Arkansas man stole a car from a hotel valet parking lot and then used it to commit several other crimes by driving through the entrances of two stores and robbing them.<sup>5</sup>
- In December of 2016, teenagers were arrested for an armed carjacking and robberies in Chicago.<sup>6</sup>
- In January 2017, thieves stole a truck to use it to steal other trucks in Albuquerque, New Mexico.<sup>7</sup> Albuquerque ranks as one of the highest auto theft cities in the United States; investigators are seeing vehicles used to commit burglaries involving guns and drugs.<sup>8</sup>
- In January 2017, police say the suspect in a drive-by shooting used a stolen car to commit the crime in Greeley, Colorado.<sup>9</sup>

# Model Policies

The IACP Law Enforcement Policy Center has been identifying leading practices and providing sound guidance to the law enforcement profession to assist in developing policies for individual departments. All policies and policy documents that are developed are run through the Policy Center to ensure that other groups and perspectives are included and that there is alignment among the policy positions put forth by the IACP Board.

## Model Policy

Updated: April 2019

### Crowd Management

#### I. PURPOSE

The purpose of this policy is to establish guidelines for managing crowds, protecting individual rights, and preserving the peace during demonstrations and civil disturbances.

#### II. POLICY

It is the policy of this agency to protect individual rights related to assembly and free speech; effectively manage crowds to prevent loss of life, injury, or property damage; and minimize disruption to persons who are not involved.

#### III. DEFINITIONS

**Civil Disturbance:** A gathering that constitutes a breach of the peace or any assembly of persons where there is a threat of collective violence, destruction of property, or other unlawful acts. Such a gathering may also be referred to as a riot or unlawful assembly.

**Crowd Control:** Techniques used to address civil disturbances, to include a show of force, crowd containment, dispersal equipment and tactics, and preparations for multiple arrests.

**Crowd Management:** Techniques used to manage lawful assemblies before, during, and after the event for the purpose of maintaining lawful status through event planning, pre-event contact with event organizers, issuance of permits when applicable, information gathering, personnel training, and other means.

**Demonstration:** A lawful assembly of persons organized primarily to engage in free speech activity. These may be scheduled events that allow for law enforcement planning. They include, but are not limited to, marches, protests, and other assemblies intended to attract attention. Lawful demonstrations can devolve into civil disturbances that necessitate enforcement action.

**Impact Projectiles:** Projectiles designed and intended to deliver non-penetrating impact energy from safer than contact range. These may include direct fire or non-direct skip-fired rounds. The latter are projectiles that are discharged toward the ground in front of a target.

theoretically delivering the energy to the subject following contact with the ground.

#### IV. PROCEDURES

##### A. Preparation and Planning<sup>1</sup>

1. Every effort should be made to make advance contact with event organizers and to gather the following necessary information about the event to ensure accurate assignment of personnel and resources:

a. What type of event is involved?

b. When is it planned?

c. Will the event coincide with other routine, large-scale events (e.g., sporting events)?

d. Is opposition to the event expected?

e. How many participants are expected?

f. What are the assembly areas and movement routes?

g. What actions, activities, or tactics are anticipated, to include use of demonstrator devices designed to thwart arrest?

h. What critical infrastructures are in the proximity of the event?

i. Have permits been issued?

j. Have other agencies such as fire and EMS been notified?

k. Is there a need to request mutual aid?

l. Has the appropriate level of properly equipped personnel been allocated to ensure safety of bystanders, officers, and demonstrators?

m. Will off-duty personnel be required?

n. What is the history of conduct at such events?

<sup>1</sup> See the IACP Policy Center documents on Small-Scale Special Event Preparedness available at <https://www.icap.org/policy-center/small-scale-special-event-preparedness> and for a list of additional items to consider when planning such an event.

## Considerations Document

Updated: July 2019

### Bomb Threats and Response

#### I. PURPOSE

In today's environment, law enforcement and the communities they serve should take bomb threats seriously. While many bomb threats are later determined to be hoaxes, law enforcement must respond to these threats and take appropriate action. Bomb threats may be received from a variety of sources, including, but not limited to telephone, voice over Internet protocol (VOIP), email, gaming devices, or other forms of digital or online communication. This document is intended to provide agencies with items for consideration when developing their policies regarding bomb threats and response.

#### II. POLICY

Agencies may wish to develop a policy statement to outline the agency's overall policy on officer response to bomb threats or explosive device located situations. However, this statement should take into consideration the potentially sensitive nature of bomb response procedures.

*Sample: It is the policy of this law enforcement agency that all responses to bomb threats or explosive device located situations be conducted systematically, efficiently, and in a manner that gives primary consideration to the protection of human life.*

#### III. DEFINITIONS

**Bomb Threat:** A situation where an explosive device has been reported or is suspected to be at a given location. *Explosive Device Located:* When a suspected or actual explosive device has been located or has been detonated.

#### IV. PROCEDURES

When developing their policies and guidance related to response to bomb threats or explosive device located situations, agencies should identify and develop procedures that specifically address the following:

##### A. Pre-Planning

Prior to receipt of a bomb threat or notification of an explosive device located situation, agencies should do the following:

1. Identify potential stakeholders to include:
  - authorized bomb squad units,
  - authorized fire and rescue units,
  - HAZMAT teams,
  - canine teams,
  - chief executive officer/designated command officer,
  - public information officer,
  - cyber and/or communications technology investigative specialists,
  - fusion center personnel,
  - criminal investigators personnel, and
  - emergency medical facilities.
2. Coordinate with stakeholders to include, but not be limited to:
  - establishing shared procedures,
  - addressing what information will be provided and who will be responsible for providing such information to the public and media regarding bomb threats or explosive device located situations, and
  - developing and implementing multiagency training protocols.
3. Identify threat targets, such as, but not limited to:
  - airports,
  - mass transit locations such as subways,
  - schools,
  - places of religious worship,
  - government buildings,
  - companies or organizations, and
  - prominent individuals.

<sup>1</sup> For the purposes of this document, stakeholders refer to the individual units and entities who are responsible for the direct response to a bomb threat.

## Concepts & Issues Paper

Updated: July 2019

### Line-of-Duty Death

#### I. INTRODUCTION

##### A. PURPOSE OF DOCUMENT

This paper is designed to accompany the Considerations Document on Line-of-Duty Death published by the IACP Law Enforcement Policy Center. This paper provides essential background material and supporting documentation to provide a greater understanding of the recommendations and guidance provided in the Considerations Document. This material may be of value to law enforcement executives in their efforts to develop their own policies that meet the requirements and circumstances of their communities and their law enforcement agencies.

##### B. BACKGROUND

When law enforcement agencies establish systematic policies for responding to an officer's death, they are better able to respond in a prompt, organized manner and remain sensitive to the profound human emotions survivors must confront. The immediate and continuing response of law enforcement agencies when an officer is killed has a definite impact on the well-being of survivors.<sup>1</sup> In addition to the obvious needs of the survivors of the deceased, the law enforcement agency should be prepared to assist agency personnel who may have been directly affected by the officer's death. This includes, but is not limited to, those who may have been directly involved at the scene and other close work associates, as well as those who may appear to be indirectly involved, such as communications personnel or crime scene officers. Any of these or other persons may suffer traumatic reactions to an officer's death and should be given the opportunity to receive screening or assistance—or both—from behavioral health professionals or peer counselors.

##### C. LINE-OF-DUTY DEATH DEFINED

In developing a line-of-duty death policy, an initial and serious question facing law enforcement administrators is how to define what constitutes an officer's death in the line of duty. Failure to define line-of-duty death may preclude officers and survivors from some ceremonial recognition and compensation and may cause additional emotional distress and discord between the employing agency, survivors, and others within the agency. Even good faith efforts to develop a suitable and fair definition have found many variations between agencies, some of which are noted here for consideration.<sup>2</sup>

The following list includes potential items to be included in a line-of-duty death definition. These include death

- that is a direct and proximate result of a personal or traumatic injury sustained in the line of duty;
- of a peace officer acting in their official capacity under color of law, whether on or off duty;

<sup>1</sup> For the purposes of this document, the terms "survivors" includes immediate family members of the deceased officer, to include the spouse, children, parents, siblings, fiancée, partner, significant other, or grandparents.

<sup>2</sup> For additional information, see the National Law Enforcement Officers Memorial Fund's definition at <https://www.nleomf.org/about-us/line-of-duty-death-definition>, the International Association of Chiefs of Police's definition at <https://www.icap.org/policy-center/line-of-duty-death-definition>, and the United States Department of Justice Bureau of Justice Assistance's Public Safety Officers' Benefits website at <https://www.bsoa.gov/>.

## Need to Know...

Updated: April 2019

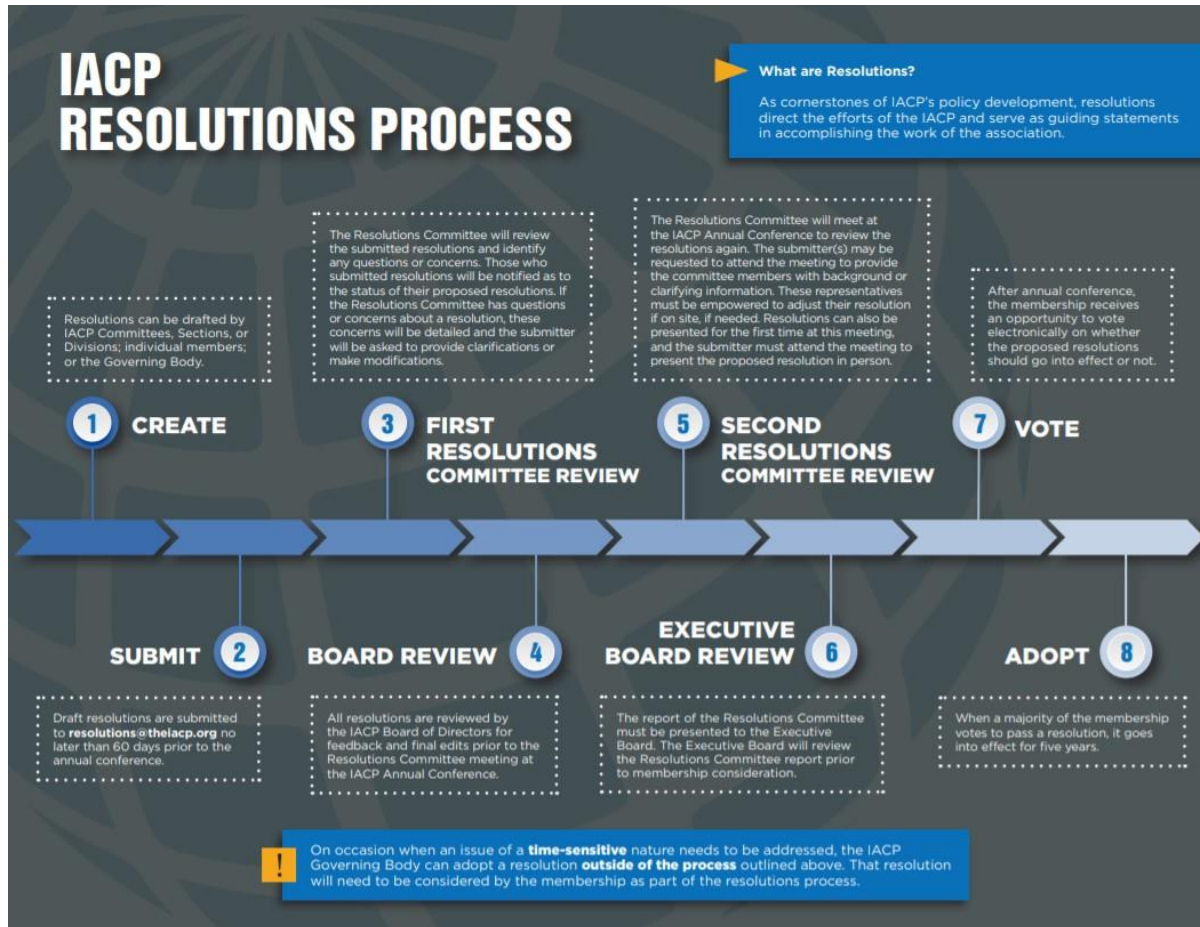

### Investigation of Allegations of Employee Misconduct

*Law enforcement agencies should establish policies and procedures for fully, fairly, and impartially investigating complaints and allegations of employee misconduct. Transparency of these procedures will aid in fostering trust with the community and acceptance of the process by agency employees.*

- Agencies should develop **individualized complaint forms** that allow members of the public to report alleged employee misconduct. Agencies should also identify methods for internal reports of misconduct.
- Complainants should be provided with the opportunity to submit complaints **in person, over the telephone, in writing, or via the Internet**.
- A **central authority** with primary responsibility for conducting investigations of employee misconduct allegations should be identified. This may include the Office of Professional Standards (OPS) or Internal Affairs Unit.
- **Supervisors** should be given the opportunity to conduct preliminary assessments of complaints to determine if grounds exist to conduct an administrative investigation. However, OPS should maintain the authority to assume responsibility of the investigation at any time.
- Employees accused of misconduct should be **interviewed** as part of the investigation. All applicable warnings regarding compelled statements should be provided to the employee and the employee should be allowed a personal or professional representative to be present as an observer.
- **Examinations and searches** may be necessary as part of the investigation. This may include breath, urine, or polygraph examinations; lineups; and/or searches of property belonging to the agency. Agencies should consult their legal advisors regarding applicable restrictions.
- Once the investigation is complete, a **final disposition** (sustained, not sustained, exonerated, unfounded, or policy failure) should be determined by the supervisor or OPS, as appropriate, and forwarded to the agency chief executive for review and approval.
- If the investigation results in a disposition of **sustained**, a formal document outlining the administrative charges should be drafted and provided to the employee. The employee should be provided with an opportunity to respond and/or appeal.
- Where necessary, all **corrective actions** should be approved by the chief executive or their designee and fully documented.
- All information related to the investigation of allegations of misconduct should be considered **confidential** and retained under secure conditions.
- Once the investigation is complete, a letter should be sent to the **complainant** explaining the final disposition.

# Resolutions

## Crime Prevention, Domestic Security and Quality of Life: Definition and Significant Value of Community Policing

Submitted by: Community Policing Committee

Co-Sponsored by: Communications & Technology Committee, Crime Prevention Committee, Education & Training Committee, Forensics Committee, Committee on Homeland Security, Human & Civil Rights Committee, Juvenile Justice & Child Protection Committee, Narcotics & Dangerous Drugs Committee, Police Administration Committee, Private Sector Liaison Committee, Police Professional Standards Ethics & Image Committee, Research Advisory Committee, Terrorism Committee, Transnational Crime Committee, Victim Services Committee

COM.01.19

WHEREAS, for decades the IACP has recognized, acknowledged, and endorsed the value and effectiveness of community policing; and

WHEREAS, over the years various philosophies, principles, and practices have evolved;

WHEREAS, it is beneficial to clearly define the key elements of community policing;

WHEREAS, problem-solving through the use of key elements of community policing is essential to the success of community policing;

WHEREAS, police legitimacy and public trust are on the conditions that produce crime and delinquency;

WHEREAS, the essential elements of community policing are partnership, community trust building, and community involvement and responsibility;

## Worldwide Call for Legislation and/or Appropriate Regulation That Mandates Encryption Implementation Regimes That Maintain Reasonable Security of Communications and Stored Data, yet Permit Lawful Access by Law Enforcement Pursuant to the Rule of Law

Submitted by: Police Investigative Operations Committee and Computer Crimes & Digital Evidence Committee

PIO.23.19

WHEREAS, the use of user and provider-controlled forms of strong encryption applied to communications in transmission and to data storage devices, although simultaneously serving to help prevent certain types of crimes and preserve privacy, has also, with increased frequency, been implemented in such a manner as to significantly degrade the ability of law enforcement worldwide to detect and prevent serious crime before it occurs, as well as inhibit the identification of those responsible for crimes already committed; and

WHEREAS, the expanding implementation of user-only access encryption, in addition to enhancing privacy generally, is also specifically facilitating criminal activity worldwide by ensuring that evidence of crime is beyond the reach of law enforcement despite compliance with legal requirements that authorize the lawful seizure and use of such evidence and information in accordance with the applicable laws of each nation; and

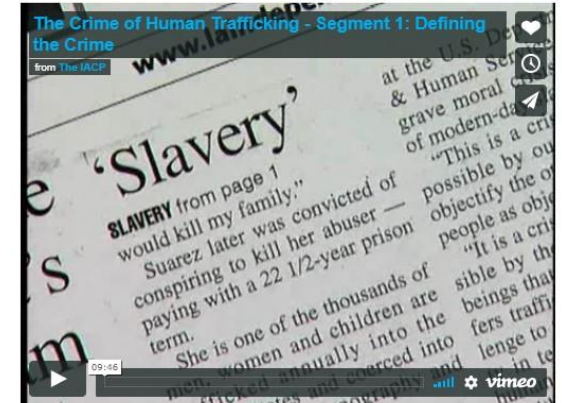

WHEREAS, the expanding implementation of user-only access encryption may be seen by some in the industry as a means of plausibly denying knowledge of and responsibility for the use of their services or devices by criminals, terrorists, and spies so as to potentially obviate any legal obligation to stop or mitigate such harms; and

WHEREAS, it is recognized that providers who implement end-to-end encryption are also under economic pressure to compete with other international providers on a level playing field and that,
